

Dear parents,

shortly after school started some new problems came up. So we had to modify our rules again.

- The **Zukunftskonferenz** (a training to improve our school in the future) will be held in spring not on the 2.11/3.11.2020. Lessons will be given as on the timetable.
- In the **MfZ**, the students must be outside, in the canteen or in their classroom. The areas in the different years will be open for one cohort (two classes) of the year. It changes every day. The school yard is still divided by years and the students have to keep distance to the other cohorts.
- The students will be picked up by their teacher for lessons not in their classroom.
- Sports lessons are getting more and more complicated by the new rules given. Each sports teacher will inform their classes concerning possible changes.
- The canteen will be opened for the usual time frames for each year but the areas will be seperated again for each cohort.
Every student is only allowed to be 15 minutes at the table.

Please discuss also these rules with your children. It is important to state how essential these rules are to reduce the possibility to get infected.

Thank you very much for your support!

Kind regards

Matthias Schmuhl
headmaster
